**CANCELLATION / RISK PURCHASE CLAUSE:**

=====

The owner reserves the right to cancel this purchase order or any part thereof and shall be entitled to rescind the contract wholly or in part with a written notice to the vendor if:

- (i) The vendor fails to comply with the terms of this purchase order
- (ii) The vendor fails to deliver the goods on time and / or replace the rejected goods promptly
- (iii) The Vendor becomes bankrupt or goes into liquidation
- (iv) The vendor makes a general assignment for the benefit of creditors
- (v) A receiver is appointed for any of the property owned by the vendor.

Upon receipt of the said cancellation notice, the vendor shall discontinue all work on the Purchase Order and matters connected with it. The vendor is aware that the said goods are required by the owner for the ultimate purpose of materials production and that non delivery may cause loss of production and consequently loss of profit to the owner.

Therefore, in case of Termination of the contract, Owner shall have the right to carry out the unexecuted portion of the supply/work either by themselves or through any other vendor(s)/contractor(s) at the risk and cost of the vendor/ contractor. In view of paucity of time, Owner shall have the right to place such unexecuted portion of the supply/work on any nominated vendor(s)/contractor(s). However, the overall liability of the vendor/Contractor shall be restricted to 100% of the total contract value.

The provision of this clause shall not prejudice the right of the Owner from invoking the provisions of clause "Delayed Delivery" as a fore said.

Note: Non-acceptance of the Cancellation / Risk Purchase clause, makes your offer liable for rejection.

### **Supplementary Section on Bid Submission**

The two broad classification of tenders for generating bid document, be it "Pre-qualification bid" or "Technical/ Priced bid are as follows:

**1. Low value tender having 20-50 items and limited uploads/questions**

For Low value tender, "No of items" where rate is to be entered is very limited and there are less no. of questions, vendors can directly work on Prepare tender >> Generate Technical and Priced bid >> Attach document and generate envelope.

#### **Bid generation and submission**

Go to Generate Technical and Priced bid >> Attach Document and Generate envelope.

- a. Fill responses, upload documents (pdf only), give Prices and Taxes etc and click on “Generate technical bid”, followed by “Generate Priced bid”.
- b. Save Technical Bid Envelope and Price bid envelope in local machine.
- c. Check the bid documents for correctness. If found OK, digitally signed and encrypted the file using the “Signing cum encryption” utility.
- d. No provision will be available for saving the work in this option. So for Bid resubmission/any other modification, responses/forms/rates etc have to be entered for all items again.
- e. **Keep “signed” file for records and “encrypted” file for submission**

While this method is very fast for generation of bids, it requires full efforts in redoing same if need arises.

## 2. **Moderate to high value tender having more than 50 items and other uploads**

For moderate to high value tenders (having more than 50 items), the method mentioned above can be risky as there is no option to save interim work. Further the session out time for application is 20 minutes, which means if “generate bid” button is not clicked within 20 minutes of landing in the page the work done will be lost.

The method for “**Saving work**” is as below:

- a. Click on Prepare tender >> Generate Technical and Priced bid >> “Work without attaching document”. Here enter the rates/ responses etc, except for uploading the documents. Once adequate entries are made click on the tab “Save work on local computer”, show the path and save the file in local machine.
- b. Now click on “Update Values from Local Computer” and show path of the saved file. The rates and responses will get populated till the previous work done.
- c. The saved values can be edited and Rates/response can be filled up for balance items/sections. Again save the work. **Work can be saved as many times as required.**
- d. While updating values from local computer, always browse only latest generated saved work file.

## Bid generation and Submission

- a. Once all the rates/responses are finalized, click on the tab “Generate Technical and Priced bid envelope >> Attach doc and generate envelope.
- b. Click on the tab at the bottom of screen “Update value from local computer”. **Remember to upload only the latest generated files.**

- c. On uploading “save work” file, all the item rates/ responses will be populated against appropriate section. Also in the same page, browse the documents (pdf only) to be uploaded if any.
- d. After checking entered rates/ response sheet and uploaded supporting documents, click on “Generate technical bid envelope” followed by “Generate Priced bid envelope”.
- e. Save the PDF files of technical and price bid envelope.
- f. Check the pdf document for correctness. If found OK, digitally signed and encrypted the file using the “Signing cum encryption” utility.

**Keep “signed” file for records and “encrypted” file for submission.**

HPCL and the Bidder agree that the Notice Inviting Tender (NIT) is an offer made on the condition that the bidder will sign the Integrity Pact and the Bid would be kept open in its original form without variation or modification for a period of 90 Days from the last date for the receipt of tender stated in the NIT and the making of the bid shall be regarded as an unconditional and absolute acceptance of this condition of the NIT.

We confirm acceptance and compliance with the Integrity Pact in letter and spirit. We further agree that the contract consisting of the above conditions of NIT as the offer and the submission of Bid as the Acceptance shall be separate and distinct from the contract which will come into existence when bid is finally accepted by HPCL.

The consideration for this separate initial contract preceding the main contract is that HPCL is not agreeable to sell the NIT to the Bidder and to consider the bid to be made except on the condition that the bid shall be kept open for 90 Days after the last date fixed for the receipt of the bids and the Bidder desires to make a bid on this condition and after entering into this separate initial contract with HPCL.

HPCL promises to consider the bid on this condition and the Bidder agrees to keep the bid open for the required period. These reciprocal promises form the consideration for this separate initial contract between the parties.

If Bidder fails to honour the above terms and conditions, HPCL shall have unqualified, absolute and unfettered right to encash / forfeit the bid security submitted in this behalf.
